Cooper
University Health Care

Dear Colleague,

We are pleased to present you with the **Cooper University Health Care 2020/2021 Referral Directory**, which is designed to provide you with the latest information about our physicians, office locations, clinical services, and programs available for you and your patients.

As the leading academic health system in Southern New Jersey, we are continually expanding our programs and services and developing new resources in the community to fulfill our mission *to serve, to heal, to educate*. In addition to Cooper University Hospital in Camden, our network consists of more than 105 outpatient offices located in Atlantic, Burlington, Camden, Gloucester, Mercer, and Salem counties in New Jersey as well as in Delaware County, Pennsylvania. Cooper's full range of conveniently located, community-based services includes the Cooper Specialty Care in Cherry Hill, the Cooper Surgical Center in Voorhees, and Cooper Urgent Care Centers in Audubon, Cherry Hill, and Cinnaminson. This directory will help you to navigate services and providers at all Cooper locations.

As always, you can visit **CooperHealth.org** for updated physician profiles, educational programs, and patient testimonials.

The Cooper Health Sciences Campus in Camden (see the map on the inside back cover) is home to Cooper University Hospital, Children's Regional Hospital at Cooper, MD Anderson Cancer Center at Cooper, Cooper Medical School of Rowan University, and numerous outpatient offices and services located at the Sheridan Pavilion (Three Cooper Plaza). Free valet parking is available to patients and visitors at the MD Anderson Cancer Center at Cooper. In addition, valet parking is available to all others at the Roberts Pavilion entrance, Monday through Friday, from 6 a.m. to 6 p.m., for the same fee as self-parking.

We welcome the opportunity to serve and provide your patients and their families with the best possible care and treatment.

## Expertise

The Cooper Learning Center in the Department of Pediatrics provides the region's only reading/learning disabilities assessment and treatment program affiliated with a teaching hospital/medical school. The Center offers parents and children:

- Advanced, scientifically proven methods for accurately assessing and treating children's learning difficulties, including dyslexia and executive functioning.
- Clinical consultation for possible physical or emotional causes of learning disabilities; and
- A team of educational and psychological professionals to assess and remediate learning, attention and behavioral problems.

## Services:

- Educational consultations, psychoeducational and academic evaluations. Reading, writing and math programs utilizing one-on-one instruction. Contracted programs in schools.
- Psychological assessment and counseling for child and parent to address: ADHD, anger management, anxiety disorders, mild depression and oppositional defiant disorder.

## Insurance and Billing

Some insurance companies may reimburse patients for the comprehensive evaluation and the medical component of care. Educationally-based services are not typically covered. Patients are encouraged to work with our staff about insurance, billing and affordable payment plans.
