Intended Audience:
The intended audience for this conference includes primary care physicians and specialists in hematology, medical oncology, and surgical oncology. Residents, fellows, physician assistants, advanced practice nurses, oncology nurses, cancer registrars, and other physicians with an educational need or interest in this topic may also attend.

Overall Activity Objectives:
- Identify the need and role of breast cancer risk assessment in improving early detection and risk reduction.
- Review recent advances, screening, prevention strategies (lifestyle, chemoprevention, surgical), and reconstruction techniques for individuals identified as being at high risk for breast cancer.
- Increase the number of individuals who know their risk for breast cancer and for those identified as being at high risk, and increase the number of individuals who engage in prevention/early detection programs and strategies.

Method of Payment:
