Intended Audience:  
The intended audience for this conference includes primary care physicians and specialists in obstetrics, gynecology, and radiation oncology. Residents, fellows, advanced practice nurses, oncology nurses, cancer registrars, and other physicians with an educational need or interest in this topic may also attend.

Overall Learner Objectives:  
This course will update obstetricians, gynecologists, radiation oncologists, and primary care physicians regarding the personalization of gynecologic cancer care. Participants will gain a greater understanding of how individualization of care and new technologic developments are changing the management of the gynecologic oncology patient.
